EXECUTIVE VERDICT
GO — Confidence: 91%

Strong Market Fit

"The proposed AI-Powered Developer Code Review platform addresses a high-friction pain point in mid-to-enterprise engineering teams. Market demand is accelerating 42% YoY with weak incumbent specialization."

Four agents. One verdict.

Specialized agents work in parallel, stress-testing your idea from every dimension simultaneously.

Market Research Agent

Evaluates TAM/SAM/SOM market sizes, growth drivers, target personas, and adoption trends.

OUTPUT: Market Size & CAGR

Competitor Intel Agent

Maps direct & indirect competitors, pricing models, feature matrix, and uncovers your unique moat.

OUTPUT: Competitive Moat

Risk Evaluation Agent

Diagnoses technical feasibility hurdles, regulatory obstacles, and execution pitfalls with mitigations.

OUTPUT: Risk Mitigations

Executive Orchestrator

Synthesizes all findings into a scored executive verdict: Go, Pivot, or No-Go — with key takeaways.

OUTPUT: Final Recommendation
